Yummy Winter

Abigail Feinstein

Grade 8

When I think of winter, I think of food I like to eat
It starts with Thanksgiving, turkey and meat
Sweet potatoes with marshmallows on my plate piled high
Food, family and gratitude, ending with pumpkin pie
The weather turns cold, outside there is snow
After hours of sledding, warm up with cookies and hot cocoa
Happy to shed big, comfy sweaters and sweatpants piled in mounds
Not only to keep me warm, but to hide the extra pounds
Then before we know it, the holidays arrive
The time with family, the gifts and more food in which I thrive
We celebrate Chanukah then Christmas day we have a plan
See a movie, eat popcorn and then Chinese food for dinner, I am a big fan
