Bronx Community Farm Hubs

To address both the immediate need for healthful produce and the long-term problem of food insecurity, exacerbated by the global pandemic, Bronx Green-Up including the Compost Project are working with a collective network of community gardens and farms to increase the local production and distribution of fresh fruit and vegetables.

This new initiative, the **Bronx Community Farm Hubs**, is made up of 18 neighborhood gardens and farms in Crotona/Belmont, Highbridge, Longwood/Hunt's Point, South Bronx, North Bronx, and Morrisania. If you are interested in supporting or volunteering with one of the Bronx community farm hubs, please email

bronxgreenup@nybg.org
