

Horticulture Therapist / Specialist

Job Requirements

Utilize horticultural-related activities to positively impact the health, wellness and vitality of individuals with complex conditions. Create and implement dynamic, therapeutically based experiences that promote the development of skills. Complete all facets of documentation, from assessment to treatment summary, in order to illustrate both quantitative and qualitative outcomes. Collaborate with other professionals, most directly members of the Integrated Arts team. Design and maintain therapeutic gardens, greenhouses, and other outdoor locations. Excellent verbal and written communication skills and ability to work collaboratively within large teams. Must be flexible and organized. This is a full-time position that includes some evening and weekend hours. This position is grant funded with a competitive salary and comprehensive benefits package.

Qualifications

Bachelor's degree with a concentration in horticultural therapy OR bachelor's degree in a related field. Minimum one-year experience facilitating horticultural-based therapeutic programs. Horticultural Therapist-Registered (HTR) with the American Horticultural Therapy Association (AHTA) preferred. Non-restricted NYS Driver's license and basic computer skills.

About The Center for Discovery

The Center for Discovery is a major research and specialty center that offers residential, medical, clinical, and special education programs to 1,200 children and adults with complex conditions, medical frailties, and Autism Spectrum Disorders. The Center spans 1500 acres, including our 300 acre certified organic and biodynamic Thanksgiving Farm®. We grow over 60 different kinds of vegetables, flowers, and herbs, and also support orchards and livestock. We have created a unique therapeutic ecosystem in which every space, activity, technology, and service is designed to work together, creating environments and opportunities that celebrate and support every person's abilities and passions.
