

JOB POSTING: ARBORIST

Start Date: June-July 2022 **Compensation:** Based on experience

ABOUT US

Urban Arborists is a knowledge driven, leading tree-care company based in Red Hook, Brooklyn, serving the five boroughs of New York City and the surrounding tristate area. Urban Arborists is known for the accuracy of its recommendations and the quality of its work. You can check out the work we've done for major institutional and municipal clients such as the Metropolitan Museum of Art, Evergreens Cemetery, NYU, and Madison Square Park. We also serve hundreds of private clients annually, from those with humble urban backyards or container gardens to luxury condo terraces and historic estates.

RESPONSIBILITIES

We are looking for an experienced arborist to join our dedicated arboricultural team. As a small and in-demand company we appreciate those who can recognize what needs doing and jump in with confidence. Job duties include estimating tree work; researching, diagnosing, and writing reports on tree health and stability; assessing tree life cycle management issues; assisting with tree risk assessments and tree management plans; managing and performing tree inventories; and managing tree planting projects. Client interface is a significant portion of the job so good rapport and ability to communicate clearly and effectively are critical.

This is a job to grow in. UA eagerly supports continuing education, including advanced ISA and other qualifications, and course work in tree management and integrated pest management.

QUALIFICATIONS/REQUIREMENTS

- ISA Certified Arborist strongly preferred
- GIS skills valued
- 3+ years of arboriculture or related horticultural experience required
- Valid Driver's license
- Ability to take initiative, problem solve and work independently
- Spanish language skills a plus
- Supportive environment for LGBTQ+ and POC.

Benefits include Health Insurance, Paid Vacation, generous sick and personal days. Salary commensurate with experience.
